[Attention]

1. There are two questions, Question 1 and Question 2.
2. There are five answer sheets and five draft sheets.
3. Write your answers for Question 1-1, Question 1-2, Question 1-3, Question 2-1, Question 2-2 on separate answer sheets. Do not use the reverse side of the answer sheets. Feel free to use the draft sheets. You may answer in either Japanese or English.
4. Be sure to write your examination number on all answer sheets.
5. After the examination, the question booklet and draft sheets will also be collected. Please do not take them home.

Question 1

Read the following document written by Mary Law, the book editor and author of the *Evidence-Based Rehabilitation: A Guide to Practice* (1st edition in 2002, pp.4-5), and answer the following three questions.

Question 1-1.

Summarize the content of this document in 500 characters in Japanese or 250 words in English.

Question 1-2.

Explain the content of the underlined **this attitude** in 200 characters in Japanese or 100 words in English.

Question 1-3.

As a researcher, discuss your perspectives on this attitude (as answered in Question 1-2) in 400 characters in Japanese or 200 words in English.

Question 2

The following passage is taken from ‘Dementia News and Real Stories’, published by the Alzheimer’s Society. Based on this passage, answer the following questions in Japanese or English. The original text is available at: <https://www.alzheimers.org.uk/blog/how-support-somebody-living-dementia-hot-weather>.

Question 2-1.

Explain why individuals with dementia are particularly likely to experience dehydration in 400 characters in Japanese or 200 words in English.

Question 2-2.

Among the measures to prevent overheating, choose the one you consider most important for individuals with dementia, and explain the reason for your choice in 400 characters in Japanese or 200 words in English.
